HMADE

Make it your Home.

HMADE è una nuova prospettiva ceramica.

Un progetto che esce dallo schema tradizionale di un'unica collezione declinabile in differenti superfici e colori: **HMADE è un progetto di interior design integrato in grado di far convivere più superfici, più matericità, tradizioni, stili e sapori differenti. Tutto per un unico ambiente: la casa.**

HMADE is a new perspective in ceramics.

A project aiming to go beyond the traditional notion of a single material available in a variety of surfaces and colors: **HMADE is an integrated interior design project that started out with an idea but is capable of combining different surfaces, textures, traditions, styles and tastes. All in a single space: your home.**

HMADE, c'est une nouvelle optique céramique.

Un projet qui sort des sentiers battus d'un concept de matériau unique déclinable en plusieurs surfaces et couleurs: **HMADE est un projet de décoration d'intérieur intégré, issu d'une idée, mais sachant faire cohabiter plusieurs surfaces, matières, traditions, styles et évocations. Tout pour un seul espace : la maison.**

HMADE ist eine neue Keramikperspektive.

Ein Projekt, das über das traditionelle Schema hinausgeht, das hier in ein einziges in verschiedenen Oberflächenvarianten und Farben verwendbares Material verwandelt wird: **HMADE ist ein integriertes Innendesignprojekt, das zwar aus einer Idee entspringt, aber fähig ist, mehrere verschiedene Oberflächen, Beschaffenheiten, Traditionen, Stile und Geschmacksrichtungen unter einen Hut zu bringen. All das für eine einzige Umgebung: die Wohnung.**

HMADE es una nueva perspectiva cerámica.

Un proyecto que rompe el esquema tradicional de una única materia declinable en diferentes acabados y colores: **HMADE es un proyecto integrado de diseño de interiores, que, aun naciendo de una idea, permite que coexistan diferentes acabados, materialidades, tradiciones, estilos y sabores. Todo para un ambiente único: la casa.**

HMADE è un progetto d'insieme.

Un "melting pot ceramico", un concept che mira a superare i tradizionali confini concettuali sull'impiego di una collezione ceramica, una nuova forma di espressione degli spazi del vivere contemporaneo. Parte dallo studio dello spazio e mira alla definizione degli ambienti, utilizzando tutti gli elementi che ne faranno parte, connettendoli tra loro in un processo integrato, in una nuova sinergia creativa.

HMADE is combined project.

A "ceramic melting pot", a concept that strives to go beyond traditional conceptual confines defining the use of a collection of ceramics for a new way of putting together materials we use in contemporary life. It starts out with the study of an area, outlining its spaces and using all the elements within it, connecting them together in a single integrated process and a new creative synergy.

HMADE, c'est un projet d'ensemble.

Un "melting pot céramique", un concept qui vise à s'affranchir des limites conceptuelles traditionnelles en matière d'utilisation d'une collection céramique, une nouvelle forme d'expression des lieux de vie contemporains. Tout commence par l'étude d'un espace dans l'optique de définir des intérieurs, en utilisant tous les éléments qui en feront partie, en les reliant les uns aux autres dans un processus intégré, dans une nouvelle synergie créative.

HMADE ist ein Gesamtprojekt.

Ein "Melting Pot der Keramik", ein Konzept, das darauf abzielt, die traditionellen konzeptuellen Grenzen des Einsatzes einer Keramikkollektion zu überschreiten, eine neue Ausdrucksform der Räume des zeitgemäßen Wohnens. Es geht von der Untersuchung des Raums aus und möchte die Umgebungen unter Verwendung aller dazugehörenden Elemente definieren, indem diese in einem integrierten Prozess in einer neuen kreativen Synergie verbunden werden.

HMADE es un proyecto de conjunto.

Un "melting pot cerámico", un concepto que intenta superar los tradicionales límites conceptuales del uso de una colección cerámica, una nueva forma de expresión para los espacios del habitar contemporáneo. A partir del estudio del espacio, se definen los distintos ambientes teniendo en cuenta todos los elementos pertinentes, conectándolos entre ellos en un proceso íntegro y en una nueva sinergia creativa.

HMADE sono quattro materie in una.

Abbiamo selezionato **riferimenti materici diversi**, provenienti da culture, tradizioni e stili differenti, ma intrinsecamente connessi l'un l'altro. Abbiamo enfatizzato questa connessione generando un nuovo potenziale espressivo proprio grazie al loro utilizzo congiunto. HMADE è un contenitore di vite, storie, esperienze, emozioni più che mai tangibili, che **traggono ispirazione da quattro prodotti straordinari: il cotto, il legno, il brick e le maioliche dipinte a mano.**

HMADE is four materials in one.

We took **different ideas and textures** that come from different cultures, traditions and styles but are intrinsically linked to one another. We emphasised this link by generating a new expressive potential that is achieved by putting them all together. HMADE tells the story of modern life, our stories, experiences, and emotions in a never more tangible way, **inspired by four extraordinary products: cotto, wood, brick and hand-painted majolica tiles.**

HMADE, ce sont quatre matières en une.

Nous avons choisi d'évoquer **différentes matières issues** de plusieurs cultures, traditions et styles, mais intrinsèquement en rapport les unes avec les autres. Nous avons intensifié cette liaison en créant un nouveau potentiel que leur utilisation conjointe a précisément rendu possible. HMADE est un réceptacle de vies, d'histoires, d'expériences, d'émotions plus que jamais authentiques, **qui s'inspirent de quatre produits extraordinaires: le Cotto, le bois, la brique et les faïences peintes à la main.**

HMADE sind vier Materialien in einem.

Wir haben verschiedene **Bezugsmaterialien ausgewählt**, die aus verschiedenen Kulturen, Traditionen und Stilen stammen, aber deren Wesen eng miteinander verbunden sind. Wir haben die Betonung auf diese Verbindung gelegt und so dank der kombinierten Verwendung ein neues Ausdruckspotential geschaffen. HMADE ist ein Behälter für Lebensweisen, Geschichten, Erfahrungen und Gefühle, die greifbarer denn je sind. **Die Inspirationsquelle waren jeweils vier außerordentliche Produkte: Cotto, Holz, Ziegel (Brick) und handbemalte Majolikafiesen.**

HMADE son cuatro materias en una.

Hemos **seleccionado diferentes referencias materiales**, procedentes de culturas, tradiciones y estilos distintos, pero conectadas intrínsecamente una con otra. Hemos enfatizado esa conexión dando lugar a un nuevo potencial expresivo propio, gracias a su utilización conjunta. HMADE incluye vidas, historias, experiencias y emociones ahora más que nunca tangibles, **inspiradas en cuatro productos extraordinarios: el cotto, la madera, el brick y las mayólicas pintadas a mano.**

HMADE
e' maiolica

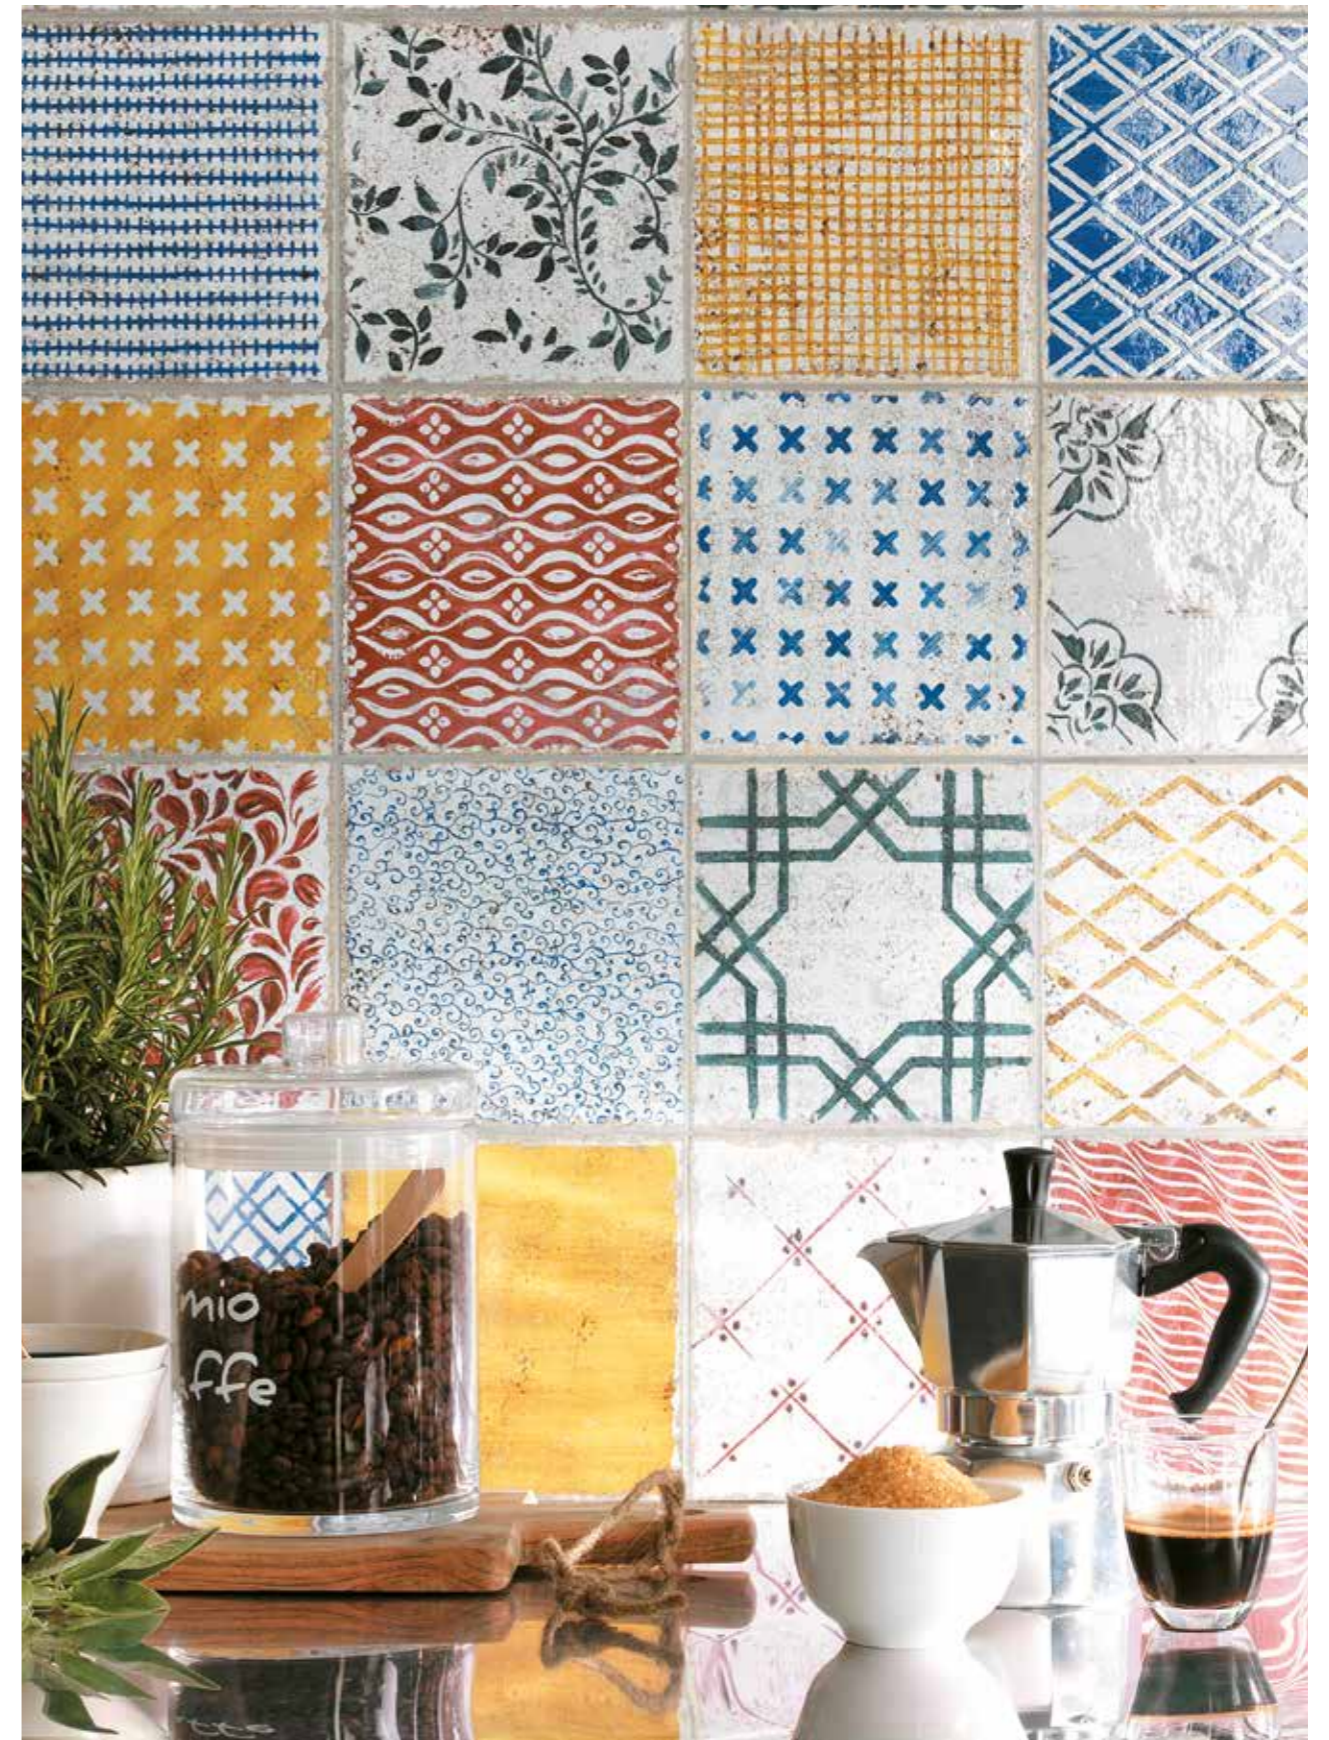

Le maioliche ripercorrono l'estetica di soggetti artistici quasi unici pennellati a mano da esperte decoratrici. Con le **Maioliche di Sant'Antonio**, questa sensazione di artigianalità è replicata in **4 tonalità colore e con oltre 40 soggetti differenti**, valorizzate dalla base in gres porcellanato Mirage, visibile nei bordi dove, come per le vecchie maioliche, lo smalto ritira e lascia vedere la colorazione del fondo.

Majolica tiles recalling the look of the individual hand-painted patterns of expert decorators. The **Sant'Antonio MAJOLICA TILES** conveys this feeling of craftsmanship in **4 shades of colour and over 40 different designs** enhanced by the porcelain stoneware body by Mirage that is seen along the edges as the glaze on old majolica tiles shrinks back a little, revealing the base colour underneath.

Les faïences font revivre l'esthétique de motifs artistiques pratiquement uniques, peints à la main par des décoratrices de talent. Avec les **FAÏENCES de Saint Antoine**, cette sensation de facture artisanale est répliquée en **4 nuances de couleur, et avec plus de 40 motifs différents**, elles sont mises en valeur par la base en grès cérame Mirage, visible sur les bords où, comme pour les vieilles faïences, l'émail se retire et laisse percevoir la coloration du fond.

Die Majolikafliesen vollziehen die Schönheit dieser von erfahrenen Dekorateurinnen handbemalten Kunstgegenstände, die beinahe Einzelstücke sind, nach. Mit den **MAJOLIKAFLIESEN von Sant'Antonio** wird dieses Gefühl der handwerklichen Erzeugung in **4 Farbtönen und mit mehr als 40 verschiedenen Bildern** wiedergegeben, die durch den Untergrund aus Feinsteinzeug von Mirage zur Geltung gebracht werden, der an den Rändern sichtbar ist, wo sich die Glasur wie bei den alten Majolikafliesen zurückzieht und so die Untergrundfärbung zum Vorschein bringt.

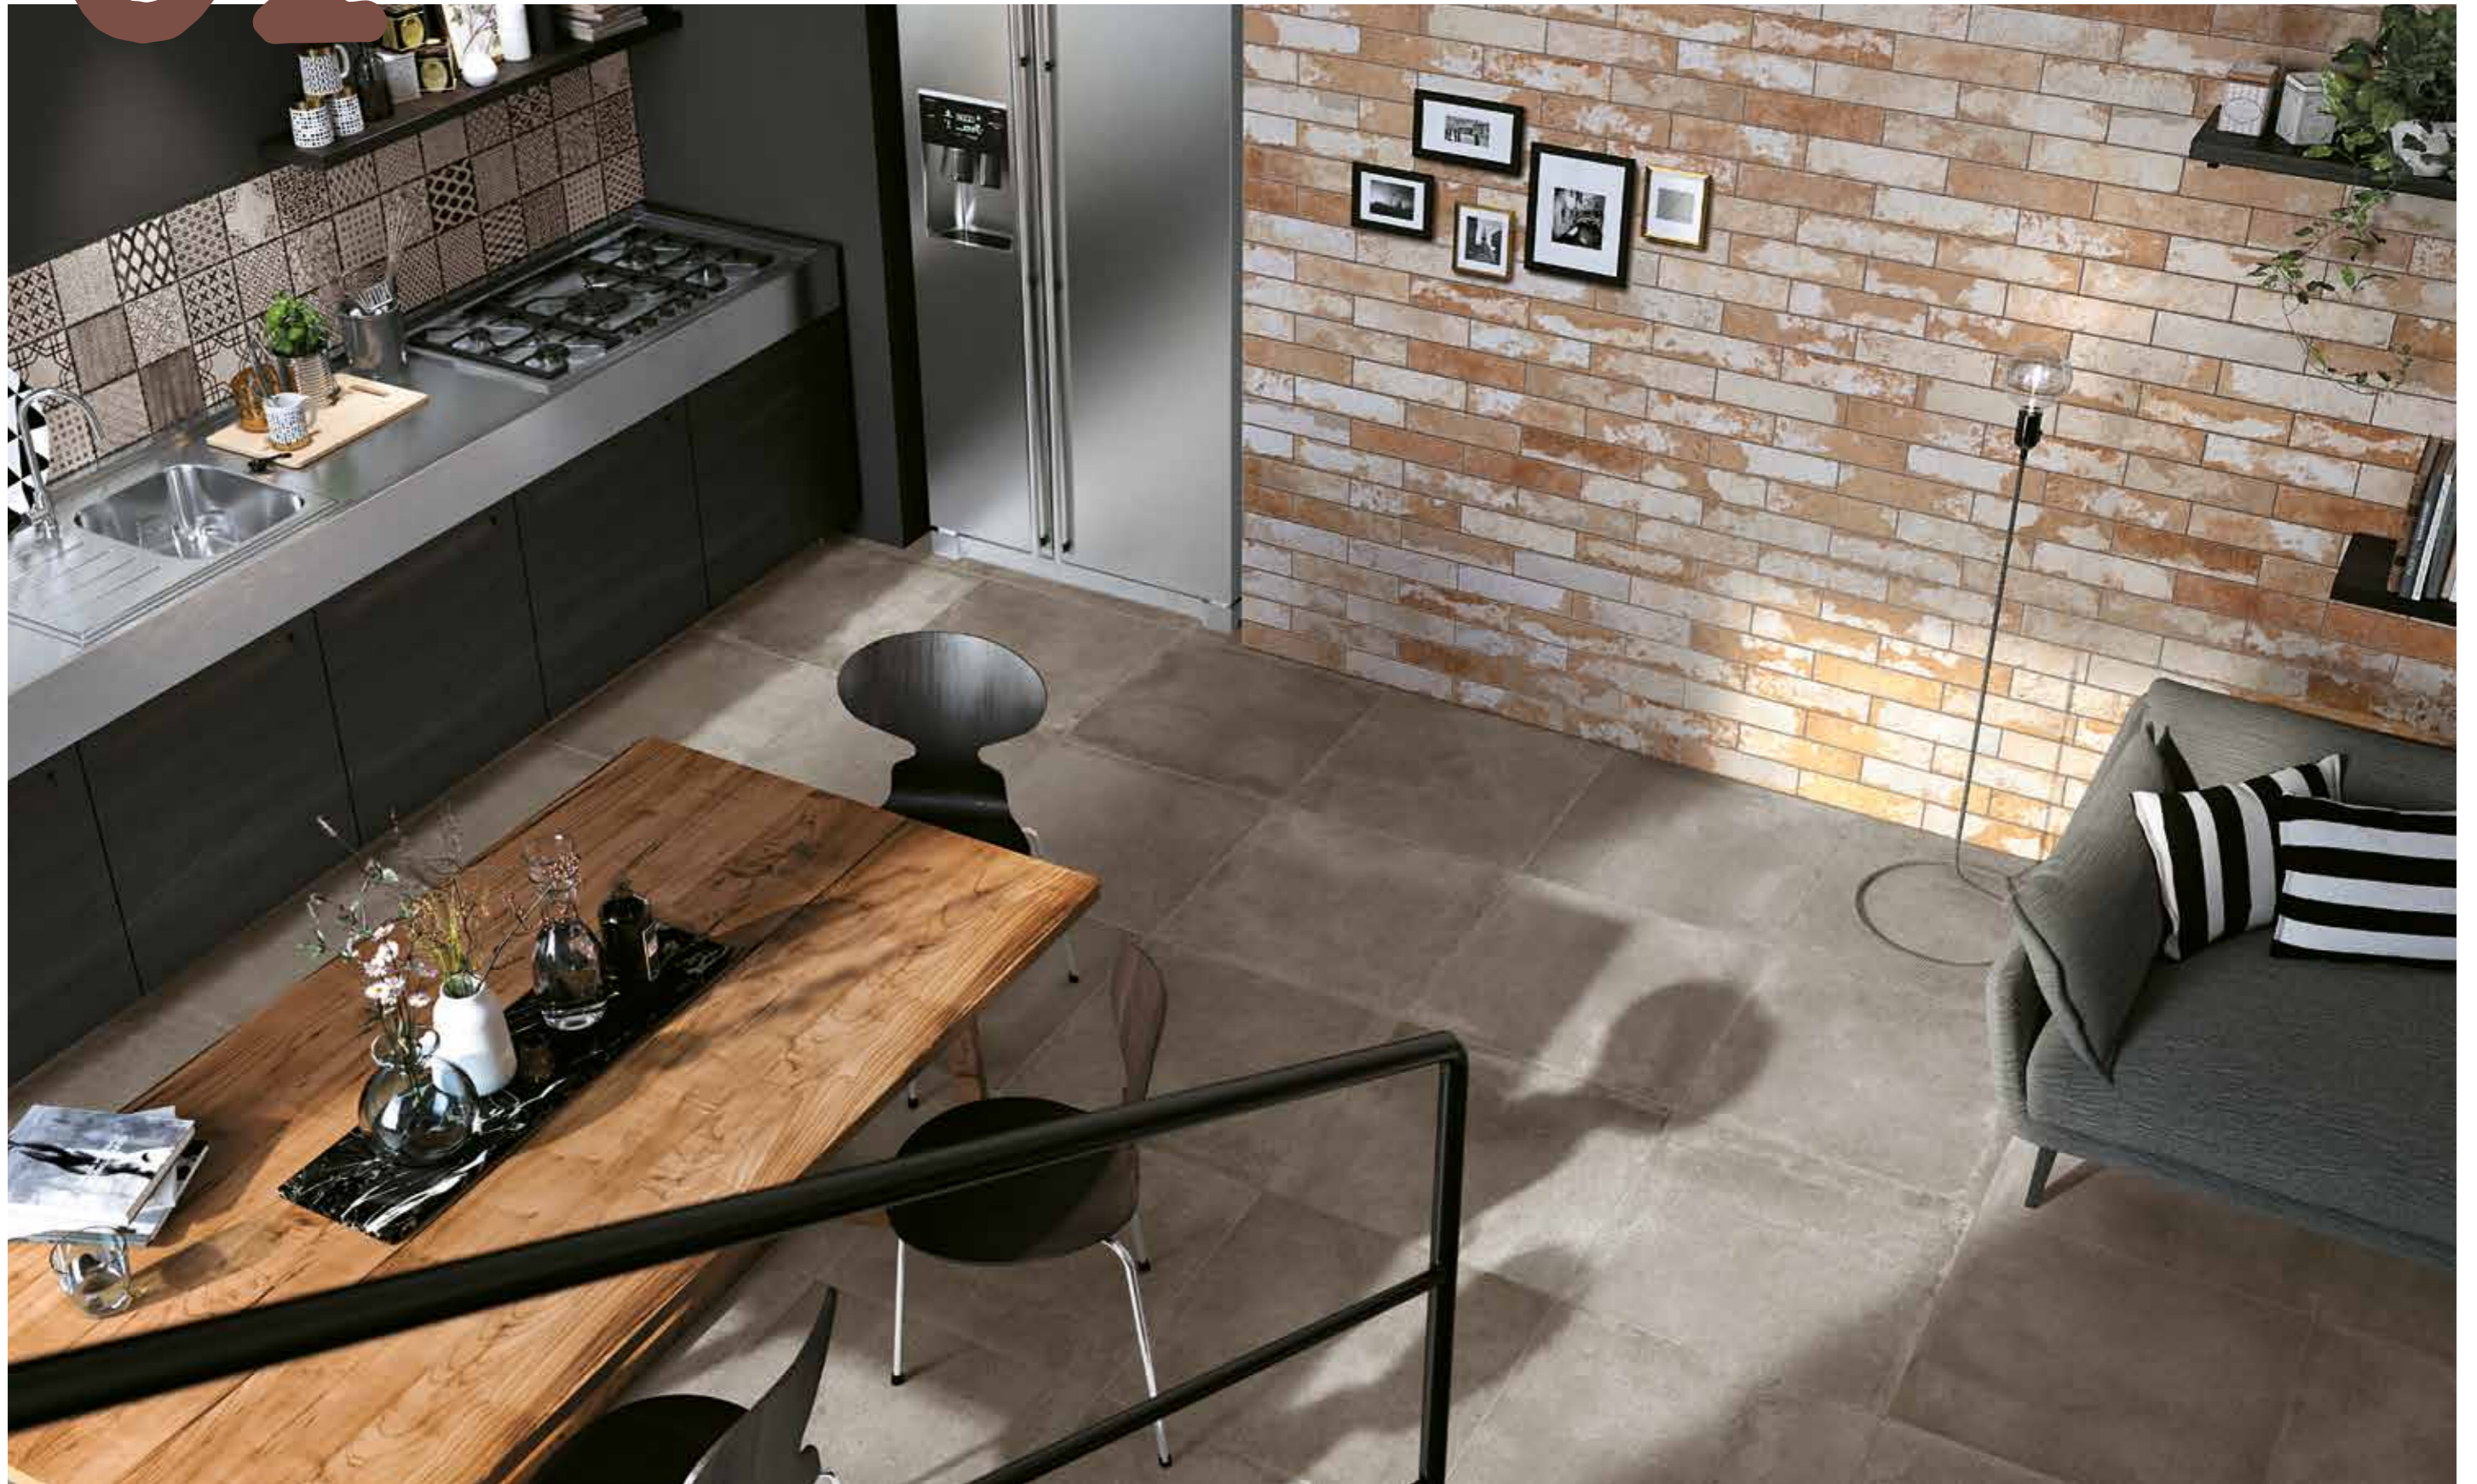

Las mayólicas recorren la estética de motivos artísticos casi únicos pintados a mano por avezadas decoradoras. Las **MAYÓLICAS de San Antonio** regalan esta sensación de artesanía en **4 tonalidades y más de 40 motivos diferentes**, valorizadas por la base de gres porcelánico Mirage, visible en los bordes, donde, al igual que para las viejas mayólicas, el esmalte se retira y deja ver el color del fondo.

HMADE e'brick

7 differenti Bricks, dal legno trattato a calce, ai classici muri in pietra e mattone tipici delle residenze italiane, per arrivare sino al classico brick in cotto, vissuto e modificato dal passaggio del tempo. Una soluzione a "faccia a vista" che ricorda irrevocabilmente i loft newyorkesi dal sapore pop e post industriale, ma che allo stesso tempo evoca ambienti rustici in un duplice valore estetico, declinabile nella propria casa nell'accezione preferita, senza limiti di spazi, arredamento o momento.

7 different BRICKS from lime-washed wood to classic stone walls and the typical bricks of Italian houses, and the classic terracotta brick that has been aged and altered by the passing of time. A "brickwork" solution that irrevocably brings the pop and post-industrial feeling of a New York loft to mind, while conjuring up more rustic settings too: two aesthetics offering a choice of mood for the home and with no limits in terms of spaces, furniture or moment.

7 verschiedene BRICKS (Ziegel), vom gekalkten Holz über die für die italienischen Häuser typischen klassischen Stein- und Ziegelmauern bis hin zum klassischen abgenutzten Cottoziegel, der die Spuren der Zeit trägt. Eine „Sichtmauerwerk“-Lösung, die eindeutig an die New Yorker Lofts mit ihrem Pop- und Post-Industrial-Stil erinnert, aber gleichzeitig auch auf ländliche Umgebungen anspielt – dadurch entsteht ein zweifacher ästhetischer Wert, der in der eigenen Wohnung ganz im gewünschten Sinn angewendet werden kann, ohne, dass dem Raum, der Einrichtung oder dem Moment Grenzen gesetzt sind.

7 BRIQUES différentes, allant du bois traité à la chaux aux traditionnels murs en pierre et briques qu'on retrouve en général dans les maisons italiennes, en passant par les briques en Cotto, vécues et soumises aux injures du temps. Une solution « de parement » rappelant à jamais les lofts newyorkais à l'âme pop et post industrielle, mais qui évoque aussi des espaces rustiques ; une double valeur esthétique, donc, declinable dans son propre intérieur dans l'acception préférée, sans limites d'espaces, de mobilier ou d'époque.

7 BRICKS diferentes, desde la madera tratada con cal hasta los clásicos muros de piedra y ladrillo típicos de las residencias italianas, hasta llegar al clásico brick de cotto, vivido y modificado por el paso del tiempo. Una solución "caravista" que recuerda inexorablemente a los lofts neoyorquinos de estilo pop y postindustrial, evocando, al mismo tiempo, ambientes rústicos en un doble valor estético, declinable en cada casa con el significado preferido, sin límites de espacios, decoración o momento.

The GARDEN

HMADE e' cottocemento

Attraverso una lavorazione minuziosa dei dettagli, delle grafiche e della stratificazione degli impasti, ogni elemento mantiene tutti i tratti distintivi seppur fondendosi in un unico materiale. Così le terrecotte moderne e provenienti dal recupero di vecchie dimore, conservano intatte le classiche fiammate dovute alle ossidazioni di cottura in una perfetta fusione tra la classicità del cotto e la contemporaneità del cemento.

The meticulous detailing, the patterns and the layering of the ceramic body, help each element to retain its distinctive personality while blending them all into a single material. And so modern terracotta and the reclaimed terracotta from old homes have the classic oxidation flaming caused during firing in a perfect combination of the classic looks of terracotta and the contemporary appeal of cement.

Anhand einer extrem genauen Ausarbeitung der Details, Grafiken und Schichten der Massen behält jedes Element all seine Unterscheidungsmerkmale bei, gleichzeitig verschmelzen sie aber zu einem einzigen Material. So bewahren die modernen und die aus alten Häusern stammenden, wiederverwerteten Terrakottafliesen die klassischen Flammenspuren aufgrund der Oxidierung beim Brennen in einer perfekten Fusion zwischen der Klassik des Cottos und der Zeitgemäßheit des Zements unversehrt bei.

Entre détails et graphismes minutieusement réalisés et pâtes stratifiées, chaque élément garde ses traits distinctifs tout en s'imbriquant pour former un matériau unique. C'est ainsi que les terres cuites modernes et provenant de la rénovation de vieilles demeures, gardent inaltérées les traditionnelles tracent de la flamme, que leur ont procuré les oxydations de cuisson, dans une parfaite fusion entre le caractère classique du Cotto et la modernité du ciment.

Aun fundiéndose en un único material, cada elemento, gracias a un meticuloso trabajo de los detalles, de los grafismos y de la estratificación de las pastas, mantiene sus características propias. De este modo, las terracotas modernas y procedentes de la recuperación de viejas viviendas conservan intactos los clásicos flameados, debidos a las oxidaciones de cocción, en una fusión perfecta entre el aspecto clásico del cotto y el carácter contemporáneo del cemento.

WORK & COFFEE

2 tonalità di Legno la cui ispirazione deriva dal recupero di plance in legno vissuto, calpestato e vaporizzato per ottenere una superficie morbida e confortevole al tatto. Plance verniciate a calce bianca, sabbiate e piallate fino a ritrovarne il colore naturale. Un'estetica che può essere valorizzata dal movimento di superficie ottenuto con la posa di accostamenti grafici differenti.

2 shades of WOOD inspired by reclaimed wooden floorboards with their aged looks, worn and steamed to achieve a soft surface that is a joy to touch. Lime-washed boards, sanded and planed down to restore their natural colour. A look that can be enhanced by a delicately uneven pattern created by the arrangement of the boards.

2 Holz-Farbtöne, die an den wiederverwerteten abgenutzten, zertrampelten und gedämpften Holzbrettern angelehnt sind, um eine weiche, angenehm anzugreifende Oberfläche zu erzielen. Weiß gekalkte, sandgestrahlte Bretter, die gehobelt werden, bis die natürliche Farbe wieder zum Vorschein kommt. Eine Optik, die durch ein leicht unregelmäßiges Muster, das der grafischen Bewegung der Bretter zu verdanken ist, zur Geltung gebracht werden kann.

2 tonalités de BOIS évoquant les vieilles planches un peu vécues, piétinées et vaporisées pour en adoucir la surface et en velouter le toucher. Des planches blanchies à la chaux, sablées et rabotées pour en retrouver la teinte naturelle. Une esthétique qui peut être valorisée par un motif subtilement irrégulier dû au mouvement graphique des planches.

2 tonalidades de MADERA, cuya inspiración deriva de la recuperación de planchas de madera vivida, pisoteada y vaporizada para obtener una superficie de tacto suave y agradable. Planchas pintadas con cal blanca, arenadas y cepilladas hasta encontrar su color natural. Una estética que puede ser valorizada por un motivo delicadamente irregular conferido por el movimiento gráfico de las planchas.

La particolarità delle Maioliche di Sant'Antonio è che state sono realizzate partendo da disegni che raffigurano oltre 40 differenti soggetti, interamente dipinti a mano. Ogni singolo pezzo è realizzato sul fondo in gres porcellanato Mirage, greificato e ricotto ulteriormente dopo la stesura dello smalto bianco maiolicato e del disegno decorativo, attraverso una preziosa tecnica che rende unico ogni pezzo. _The distinctive feature of the Maioliche di Sant'Antonio tiles is that they have been created from designs featuring over 40 different subjects, painted entirely by hand. Each individual piece is created on a Mirage porcelain stoneware base, vitrified and re-fired again after the white majolica glaze and the decorative design have been applied using a special technique that makes every piece unique.

DECORI TRASVERSALI

MATCHING DECORS

Tutti i **Decori Trasversali** sono realizzati in **tecnica semiartigianale**. I diversi smalti, utilizzati per la realizzazione degli stessi, hanno infatti caratteristiche di superficie particolari, pertanto ogni effetto di irregolarità è da considerarsi come **caratteristica di pregio del decoro**. Per la posa raccomandiamo una **miscelazione random dei pezzi**, per ottenere il risultato estetico migliore.

All **Matching Decors** are made using a **semi-artisan technique**. The various enamels used have distinctive surface characteristics, so any uneven effects are to be considered a **sign of a quantity decorative element**. When laying we recommend **mixing the pieces randomly** for best results.
